

DECLARATION/AFFIDAVIT FROM [REDACTED] REGARDING  
THEFT/UNAUTHORIZED PURCHASES ON MY ROBLOX  
ACCOUNT BRIANHI33ALT DUE TO SOMEBODY FROM  
RUSSIA HACKER

I state the following facts under penalty of perjury regarding a recent hack of my Roblox account and theft/unauthorized purchases made from my Roblox account: Brianhi33alt.

1. After taking a nap, I got up around 8:30PM. After 9PM, I went on my account Brianhi33alt on roblox.com and noticed my robux was at 306. I was devastated as I don't understand how my Roblox account could have been hacked since I used an authenticator app directly from Google Corporation which is a reputable app.

2. I changed my password at around 10:12 PM or 10:13 PM as shown in the email Roblox sent me about changing my password. I did this to prevent any further issues. However I am still shocked that somehow somebody was able to steal my robux without using my authenticator app on my cell phone.

3. I noticed Roblox sent me an email earlier today about the purchases being made from IP Address 94.233.240.20, and from Stavropol, Russia. I do not know anybody from Stavropol, Russia, I have not given anybody my password. I use an authenticator app so this should not be happening but it did happen to me. This is a hacker attack in my personal belief as I did not use any IP Address from the country of Russia. I am a natural born U.S. Citizen who was born in [REDACTED]. I am a citizen of the [REDACTED]. My account was hacked but I did everything in good faith to keep my account secure. I do not believe this was a cookie hack as whoever accessed my roblox account was in Russia and not using my computer.

4. I checked the transactions history and noticed the repeated pattern of unusual purchases started around 4:26 PM to random users such as for example: Paradox1486, Runa, monzjjangz and others. I did not make these purchases and the purchases are clearly being made to what appears to be random people but I did not make these purchases at all. My last authorized purchase which was automatic was on 5:04 AM of a monthly private server subscription. The purchases made on and after 4:26 PM were not my purchases, and I did not know of these purchases, and nobody asked me to make these purchases. I gave nobody my password to get in my account to make these purchases. I used an authenticator app to protect my account from being hacked into. I am from the United States of America and not from Russia. I was born in the United States of America. Nobody from Russia should have my roblox account information.

5. My account: Brianhi33alt was believed to have been hacked into and fraudulent/unauthorized purchases were made on 4:26PM and since then. I am in good faith in keeping my account secure by using an authenticator app from Google. Whoever stolen my robux had been able to do so and not used my Google Authenticator.

6. I make full page screenshots of my Roblox transactions on sale of goods a lot to keep track of the robux I make a profit off of with my avatar item sales. The robux I had on August 6, 2025 at 8 PM was around **22,871 ROBUX**. When I found out my account has lost the robux due to the hack from Russia, I only have about **306 ROBUX**. I have lost **22,565 ROBUX** from my estimate. Using the <https://www.deltacalculator.com/roblox/robux-to-usd/> online robux to USD tool, it has the value of \$285.89. That much worth of robux in USD earned from that estimation from that tool, all of that has been lost because of this hacker theft.

7. I created the roblox account of Brianhi33alt, and have used this account for over a year since it was created on March 12, 2024.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on August 7, 2025.

Signed,
